“Protection is not a privilege, but a right. Safety is not a luxury, but a necessity.”

That’s why at Liberty Med Supplies Pvt. Ltd., we are dedicated to providing you with the best latex gloves for your medical and industrial needs. We are your partner in protection and performance.

► **About Us**

Liberty Med Supplies Pvt. Ltd. is a leading manufacturer and supplier of latex gloves in India. We offer a wide range of latex gloves for various applications, such as surgical, examination, dental and more. Our gloves are made from natural rubber latex, which provides superior elasticity, strength, and comfort. Our latex gloves are sterile, and hypoallergenic, which reduces the risk of allergic reactions and infections. Our latex gloves are available in different sizes, colors, and textures to suit your preferences and needs.

At Liberty Med Supplies Pvt. Ltd., we are committed to providing quality, safety, and confidence to our customers. We have a state-of-the-art production facility that adheres to the highest standards of hygiene and quality control. We also have a dedicated team of sales and technical support staff who are ready to assist you with any queries or issues. We offer competitive prices, timely delivery, and customized solutions. We are proud to be your partner in protection and performance.

► **Vision:**

To be a leading provider of quality, safety, and innovation in the medical supplies industry, offering effective and affordable solutions for health and wellness.

► **Values:**

To uphold the principles of clarity, trust, loyalty, pride, and respect in all our interactions with our customers, partners, employees, and community.

► **Mission:**

To deliver excellence in customer service and satisfaction, by producing and supplying a wide range of latex gloves for various medical and industrial applications, using state-of-the-art technology and adhering to the highest standards of hygiene and quality control.

► **What does our name say ?**

- L - Latex

► Product Portfolio

- **Latex Surgical Gloves:** These gloves are anatomic in shape and fit perfectly to the surgeon's hand, enabling him to get a better grip and functionality while performing surgery. They are available in powdered and powder-free variants, as well as ortho and micro surgery types.
- **Elbow-length Gloves (Latex Sterile & Non Sterile):** These gloves are extended to cover the forearm and elbow, providing additional protection and coverage. They are available in 14", 16", and 18" lengths.
- **Latex Examination Gloves:** These gloves are used for medical examinations and procedures that require a high level of hygiene and protection. They are available in powdered and powder-free variant.
- **Nitrile Examination Gloves:** These gloves are similar to nitrile surgical gloves, but are designed for non-surgical purposes. They are available in powder-free variant.
- **Nitrile Long Cuff Examination Gloves:** These gloves are similar to nitrile surgical gloves, but are designed for non-surgical purposes. They are available in powder-free variant. They are available in 14", 16", and 18" lengths.
- **High-risk Gloves:** These gloves are specially designed for high-risk situations that involve exposure to hazardous substances or infectious agents. They are thicker and longer than standard gloves and offer extra protection and durability.

Sterile Latex Surgical Gloves- Gynaecological / Long Cuff

Protezione Sterile Latex Long Cuff Gloves (Powder Free)

Protezione long cuff gloves are latex, powder-free surgical gloves that offer extra protection and comfort for medical professionals. These gloves are designed to fit snugly and smoothly on the hands, reducing finger fatigue and enhancing efficiency. They are ideal for obstetric and gynaecological procedures, as well as other deep cavity surgeries that require extended arm coverage.

Latex Examination Gloves

Protezione Latex Examination Gloves (Powder Free)

Protezione latex examination gloves are disposable gloves that are used mostly by healthcare professionals for medical purposes. They are powder free, which means they do not contain any cornstarch or other additives that may cause allergic reactions or contaminate the work environment. Our examination gloves are designed to fit comfortably and securely on the hands, with a textured surface for better grip and dexterity.

Product Code: LMS006

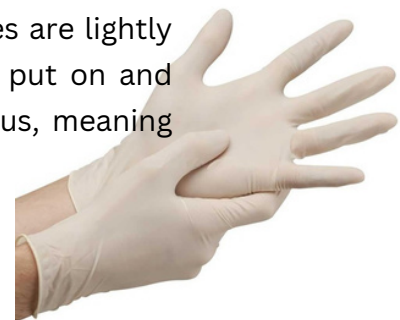

Features

- **Material** : Natural Rubber Latex
- **Color** : Natural Color (creamy white)
- **Glove Design** : Ambidextrous, Powder Free, Textured Grip
- **Size Available** : Small, Medium, Large
- **Packaging** : 100 Gloves by weight are packed in a Dispenser Box. 10/20 such Dispenser Boxes are placed in a shipping carton.

Latex Examination Gloves

Protezione Latex Examination Gloves (Pre Powdered)

Protezione latex examination gloves powdered are disposable gloves that are used for medical purposes. They are made of natural rubber latex, which provides a good fit and sensitivity. The gloves are lightly powdered with cornstarch, which makes them easier to put on and take off. The gloves are also non-sterile and ambidextrous, meaning they can be worn on either hand.

Product Code: LMS005

Features

- **Material** : Natural Rubber Latex
- **Color** : Natural Color (creamy white)
- **Glove Design** : Ambidextrous, Powdered, Textured Grip
- **Size Available** : Small, Medium, Large
- **Packaging** : 100 Gloves by weight are packed in a Dispenser Box. 10/20 such Dispenser Boxes are placed in a shipping carton.

Nitrile Examination Gloves

Protezione Nitrile Examination Gloves (Powder Free)

Protezione nitrile examination gloves are powder-free, latex-free, and food-certified. They are also puncture-resistant and have a high level of sensitivity and comfort. Protezione nitrile examination gloves are available in different sizes and colors, and are suitable for various medical and industrial applications.

Product Code: LMS007 & LMS104 FOR LONG CUFF NITRILE

Features

- **Material** : Natural Rubber Latex
- **Color** : Violet Blue/Blue/Black
- **Glove Design** : Ambidextrous, Powder Free, Textured Grip
- **Size Available** : **Length: 12", 14", 16", 18" Palm:** Small, Medium, Large
- **Packaging** : 100 Gloves by weight are packed in a Dispenser Box. 10/20 such Dispenser Boxes are placed in a shipping carton.

Non - Sterile Range of Latex Gloves:

Protezione Non - Sterile Range of Gloves

Protezione non sterile gloves are latex gloves that are used for medical examinations and other applications. They are powder-free, which means they do not contain any cornstarch or other additives that may cause allergic reactions or contaminate the environment. They are also less likely to tear or puncture than powdered gloves, making

them more durable and safe. Protezione non sterile gloves are not sterilized by gamma rays or other methods, so they are not suitable for surgical procedures or invasive treatments. However, they still provide a high level of protection against bacteria, viruses, and other pathogens.
